

Emotions are like Ocean Waves

- Both are natural phenomena
- Both are composed of the movement of energy
- Neither ask our permission; they just show up
- Both respond to the weather, the moon & the earth's movement
- Your 1st reaction may be to **FIGHT THEM**
- When you fight them, **YOU LOSE**
- Learn to READ & HONOR them  **You can stay SAFE**
- Learn to RIDE them  **You may even have some FUN**
